Empowering Teen Parents to Succeed

2022 Community Report

MISSION

Empowering teen parents to succeed.

VISION

Teen parent families thrive and enrich our community.

ORGANIZATIONAL VALUES

PERSON CENTERED

We are relentless in putting those we serve at the heart of our work.

RESPECTFUL

We are inclusive and celebrate diversity.

COLLABORATIVE

We build authentic relationships and partnerships.

INNOVATIVE

We are creative trailblazers.

RESPONSIBLE

We ensure the sustainability of our core services.

STRATEGIC GOALS

1

ADAPTING AND ADVANCING

Terra will transform services in response to evolving needs and empower teen parent families to succeed.

2

CONFRONTING RACISM

Terra will apply the principles of equity and anti-oppression to everything it undertakes: service delivery, policy development, relationship building, and system design.

3

CAPACITY BUILDING

Terra will promote the development of staff, volunteers, and board, to achieve excellence in serving the mission.

4

GROWTH AND DEVELOPMENT

Terra will expand its financial foundation with a focused effort on building a culture of philanthropy.

Letter from Leadership

Karen Mottershead

Mary Stewart

We started 2022 with the great adventure of moving into our new space in the welcoming Grovenor community. With so many years spent planning for a new home, it was wonderful to see the momentum that has been generated with us finally arriving. While there are still many chapters left in this story to be written, it feels good to be in the home that will play a role in the lives of many of the teen parent families we serve. Planning and renovations will keep us busy in 2023 and we look forward to sharing the progress with you.

There is no doubt that the pandemic left behind new challenges for many of our participant families. Together we will continue to move forward with the support they need to be hopeful about their families' future.

To improve our participants seamless access to supports, we integrated our Family Learning program and Services for Education Achievement program. This restructuring will help to ensure we can use our existing resources to deliver the most impact.

As we moved into the spring of 2022, we saw more of our families, supporters and friends in-person which provided a re-ignition of hope. We held our 50th anniversary AGM and Laughs Over Lunch

Fundraiser in-person, and the attendance at both events assured us that we were not forgotten. Our supporters have shown us that more than ever, they believe in the potential of young families and the work of Terra.

We fully embraced our 50th anniversary year by making opportunities to celebrate and share how far we have come as an agency. Terra was highlighted by several local media channels through the year and with each story we made new friends and supporters.

Our pinnacle event was a massive community block party where we had a chance to bring together old friends and new. With our celebrations behind us we think about the next 50 years of families and how to ensure we will be here to support them and what that support will be like.

We want to thank our friends, partners, and supporters who continue to believe in our work and know that when we invest in the futures of teen parent families, we are building stronger futures for us all.

Karen Mottershead
Executive Director

Mary Stewart
Board Chair

Incoming Board Chair: Susan Lovie

I had the good fortune of learning about Terra through a friend and Terra board member. As a former teen parent, I was amazed to learn that an organization like Terra existed with all its incredible services. The town I grew up in did not offer similar support and so I was inspired by the work Terra does, knowing firsthand the impact it can make on young people's lives.

In the coming years I look forward to watching Terra continue to deliver exceptional services to young parents and their children. Terra has a rich history of adapting to the changing needs of their participants and I know they will continue to do so.

Who We Served in 2022

teen parents served through Terra
304

children served through Terra
349

parents and children served through community partnerships
392

52%
identify as Indigenous

Programs and Services Include:

Early Learning and Childcare

with a strong focus on relationships, educators provide on-site quality care and an enriched learning environment for the infants and toddlers whose parents are attending Braemar School

Educational Supports

in partnership with Edmonton Public Schools, Terra provides on-site support and group programs to teen moms attending Braemar School

Youth Leadership

a focus on developing teen parents skills including leadership, teamwork and communication skills, by providing opportunities for participants to contribute to their community

Housing Support

in partnership with Brentwood Community Development Group, Terra supports teen parents to find and maintain secure and affordable housing

Mental Health Services

provides individual and couples counselling and Psychiatric care to teen parents to help assess and address their mental health challenges and develop coping skills

Post High School Transition

supports teen parents to be successful in their post-secondary journeys and provides support to help more participants consider post-secondary options

Group Services

a wide range of group programs to support teen parents in their development as parents and young adults while decreasing social isolation

Clothing and Baby Essentials

helps teen parents manage their limited budgets by providing items like diapers, wipes, formula, baby clothing, and accessories for free

Family Learning

home visitation program that helps teen parents develop positive parenting skills while addressing barriers to achieving their goals

Services for Young Dads

supports young dads with parenting capacity, employment searches, applying for funding, meeting basic needs, legal assistance, and more

Celebrating with Community

In June of 2021 we began celebrating Terra's 50th anniversary and in early 2022 we arrived to our new neighbourhood in the Grovenor community. These events aligned for the perfect end-of-summer celebration, a community Block Party. This special day gave us an opportunity to reconnect with our participants and supporters as well as meet some of our new neighbours.

Working with the City of Edmonton, we blocked off a portion of 146 Street, to make room for bouncy castles and games. We commissioned some fantastic entertainment and an exotic petting zoo to provide a unique experience for animal lovers. Guests enjoyed veggie snacks, popcorn and a hot dog lunch while partaking in carnival themed activities.

Current participants came to enjoy the day and we were able to re-connect with Terra Alumni. We met many new neighbours, enjoyed the company of volunteers as well as staff members and their families. Some of our local elected officials came together and made the day even more memorable.

Having an opportunity to engage with our community felt vital after so much time apart. We were grateful to see so many of our friends and share great experiences on our special day.

"It's really important for the families we work with feel like they belong to a community that cares about them. I'm so happy to see many of our young families come out to enjoy the day, they are the reason we are here."

- Laura Fulmer, Director Strategic Growth and Performance

35 volunteers contributed **165** hours to our Block Party celebration

Bette Walkey Award

Terra's first leading force was Bette Jane Walkey. As a teen parent and single mother she wanted people like her to have the support any parent deserves. As she began piecing together what would one day become Terra, she was determined to offer resources to teen moms to give them a better life, including housing, counselling, education, and childcare.

In 1971, two years into her work with MOVE (now Terra), Bette's life was taken. Her untimely death impacted those who walked beside her and strengthened a resolve to ensure teen parents had the tools that they needed to help their families succeed.

As a tribute to Bette, we established the Bette Walkey Legacy Award. This award is intended to honour individuals who have made a significant impact in the lives of teen parent families.

On September 10, 2022, we awarded Melissa Mendez Hurst with the inaugural Bette Jane Walkey Legacy Award. As a young parent Melissa was served through Terra. She demonstrated leadership through public speaking and represented the promise of young parents. Melissa is now an alumna and a 14 year employee of Terra, she brings great compassion to her work each day. Her commitment to the Terra mission is unwavering, always seeking ways to reduce barriers and make life more manageable for our participants.

We were honoured to have many members of Bette's family join us for this special award ceremony.

Melissa (center) holding her award

Bette Jane Walkey, 1949 - 1971
Coordinator of MOVE (TERRA)

Alumni Inspiration

With over 50 years of working with teen parents and their children, we have witnessed an incredible impact that spans generations. As our supports grow to reach more families in more ways, these stories remind us that we are not just supporting young parents - we are building stronger futures for generations to come.

Wadean and her son Matthew in 2022

A Mom at 15

When Wadean was 12, her older sister (16) had a baby and raised him in the family home. Wadean loved having her nephew around and spending time with him. Even though teen-pregnancy was a reality in Wadean's home, no one really talked about it or discussed sexual health.

At 15, Wadean was in a relationship with an older boy and became pregnant. Despite her older sister's experience, her parents avoided conversation about the pregnancy and Wadean felt isolated in her own home.

"I went to see a male counsellor at my school for help and he told me, *"If you play with fire, you'll get burned."* This was traumatic for me."

Wadean went to another school counsellor who told her about Terra. Matthew was born in May of 1984, Wadean's boyfriend left the picture, but her parents embraced their new grandchild.

At Terra, Wadean excelled in school and made amazing friends many of whom she stills connects with from time-to time. She has fond memories of her favourite teacher,

Mike Rousell, who made coming to school fun and rewarding. Wadean received several awards during her time at Terra, including best attendance.

After high school, Wadean was employed as a bank teller and on her 18th birthday she and Matthew moved into their own apartment.

Wadean met her now husband Gerald, while working at the bank. The happy family thrived and grew with the arrivals of Jordan and Janelle.

Matthew was an excellent student and went on to build a career in the oil and gas industry. All three of Wadean's children are now married with children of their own.

Wadean is a devoted mother and grandmother who has a close relationship with all her children and her four beautiful grandchildren.

"I felt so supported at Terra. I gained confidence and learned how to stand up for myself. At Terra, I found my voice."

— Wadean Brouwer, Terra Alumni

Wadean and Terra teacher, Mike Rousell 1985

Mike Rousell taught at St. Brides (Terra's location at the time) for seven years. He accepted the position at Terra with great interest as he also had the experience of being a teen parent. While he and his wife had ample family supports, they also felt the challenges of parenting as teens.

While at the school Mike embraced the experience and used humour and laughter to encourage learning. He remembers having lunch with the students, playing with their children and doing his best to make sure they were on track.

Presently, Dr. Michael A. Rousell, PhD is a teacher, psychologist, and professor emeritus at Southern Oregon University. Rousell studied life-changing events for over three decades and established his expertise by writing the internationally popular book, *Sudden Influence: How Spontaneous Events Shape Our Lives* (2007).

EXPANDING HOPE

kindred | terra centre

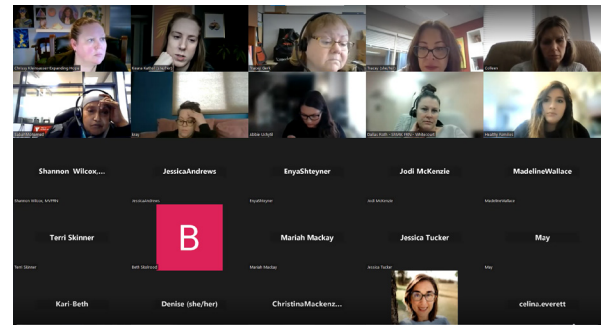

Reaching Young Families Across Alberta

Provincial Family Resource Networks (FRNs) provide supports and services to help Alberta families become resilient, strong and healthy. Networks deliver prevention and early intervention services and supports for children and youth aged 0 to 18, as well as supports for parents and caregivers.

In partnership with Alberta’s network of FRNs and their communities, the Expanding Hope project is designed to provide access to services and supports that address the unique needs of teen parent families across Alberta.

As of 2022, Terra Centre for Teen Parents (Edmonton) and Kindred (Calgary) have partnered to focus on two streams of service across Alberta. The first stream will provide supports for teen parent families and their children, particularly in areas of the province where there may be limited access to specialized services. The second stream will provide training and capacity building for professionals who support young parents so they can provide effective programs and services to young families.

Program staff build relationships with families and communities to help ensure that they are supported in a way that’s

Virtual training session delivered to FRNs by Expanding Hope

meaningful to them regardless of geographical location. Through Expanding Hope, pregnant and parenting teens across Alberta have access to:

- 1:1 coaching, information on child development, and interventions aimed at strengthening the caregiver-child relationship
- Access to peer support groups
- System navigation support
- Advocacy support
- Access to resources and more

There are 70 FRNs across Alberta

Outcomes for Young Parents

- Caregivers have knowledge about the stages of child development, parenting skills and other relevant knowledge for a healthy family.
- Young parents achieve healthy development, resilience and well-being.
- Children are guided by trusted adults in their learning and development.

Outcomes for Alberta’s FRNs

- FRNs have support, training and resources to provide effective programs and services to young families.
- FRNs possess the necessary knowledge, skills, abilities and resources to deliver services to teen parent families.
- Young families across Alberta have increased access to specialized services with support from their FRN.

Mental Health Supports for Teen Parents

Prioritizing Mental Health for Better Outcomes

Teen parents face a high rate of trauma, depression, anxiety, and postpartum depression. These mental health concerns not only affect the adolescent parent, but they can also interfere with the development of their children.

Over ten years ago, the Terra team repeatedly recognized an increasing number of teen parents with diagnosed and undiagnosed mental health issues, such as bi-polar disorder, generalized anxiety disorder, post-traumatic stress disorder (PTSD), post-partum depression and post-partum psychosis, eating disorders, and addictions.

In 2012 Terra received pilot project funding through Alberta Health Services and partnered with the Canadian Mental Health Association (CMHA) to support a part-time Mental Health Recovery Facilitator (MHRF) for Braemar School students. Having a mental health professional at the school helped normalize mental health and allowed students to access professional mental health support as an integrated, complementary, and consistent service

within the school setting.

The outcomes of the pilot were extremely positive, and the program was expanded for three more years. This allowed Terra to assess ongoing concurrent mental health and addiction needs of participants and families and develop a sustainable full-time mental health program at Terra. Our *Mental Health and Wellness* program is embedded into the supports and services already provided at Terra. This enhances our overall capacity to meet the needs of young parents allowing them to thrive and enrich their communities.

Program Growth

During the COVID-19 pandemic there were limitations around funding and a high need for services. This required Terra to become creative around securing sustainable funding for existing therapeutic services. As a result of prioritizing this support, we were able to increase our pre-pandemic team of one full time therapist and a consulting psychiatrist, to three therapists, our consulting psychiatrist, and one contracted therapist from a Boyle Street collaboration for those who prefer to work with a male identifying therapist.

2022 Mental Health Program Highlights

44%

participants accessed supports

1,969

mental health sessions
(average 14 session per participant)

In 2022 the top reasons why parents sought support from the mental health program included:

- Emotional regulation
- Relationship issues
- Parenting
- Anxiety
- Complex trauma

By building-in appropriate relationship-based mental health supports, focused on solutions and concrete tools, students are in a stronger position to move forward toward healthier relationships, school completion, and the pursuit of stable living conditions.

Terra's 2022 Mental Health team

A host of benefits come with having mental health supports embedded in Terra programs and services.

High Quality Therapeutic Intervention

Our therapists come to us with a high level of education and experience to work with the issues Terra families face. The team also ensures there is no cap or limit on session numbers. They meet participants where they are at and through a method of interaction they prefer. A consulting psychiatrist with a specialization in addiction allows the team to provide timely access to psychiatric assessment, intervention, and follow-up – a service that can hold up to a 2 year wait in the community and may not be specialized enough for young families needs.

Building Staff Capacity

Having a robust mental health team creates many opportunities for in house professional development of our front-line program staff. The “in the moment” opportunities to debrief around crisis situations and consult for an participant’s mental health needs create a strong continuity of care. This care benefits participants enrolled in the *Mental Health and Wellness* program as well as those who are not ready or yet willing to seek out official counselling supports.

Building Community Capacity

Our Mental Health and Wellness team shares insight regarding the complex needs of teen parent families, during their interactions with children’s services, police and court involvement, income support, etc. Our therapist’s advocacy for our participants helps the greater community understand how to best work with Terra’s teen parent families.

Therapist and Participant Relationships

Because the Mental Health Therapist is part of the on-site professional team, activities and events, adolescents can build rapport with the therapist outside of the clinical setting. Therapeutic treatment is available for as long as youth are connected to Terra, this helps form relationships and helps markers for change become more evident. Our Mental Health team does not have a cancellation or no-show policy which removes potential barriers and allows participants to access supports when and where they need them.

Closer to our *Vision*

In January 2022, we moved into our new building and began to see our vision for the future take shape.

Thanks to an outpouring of early donor support, we are so much closer to realizing our vision of creating an inclusive hub for teen parents and the community. To date, we have raised more than \$2.8M, approximately 70% of our \$4,000,000 campaign goal.

Newly renovated Clothes Closet

This early support enabled Terra to begin renovations on the lower level of the building. We built a new Clothes Closet for our parents to access, created a new Multipurpose Room for participant programming, and have made major progress on our future Collective Kitchen, Learning Lab and Parent Lounge. Once complete, this floor will be bustling with activity and opportunities for our participants.

The Clothes Closet and Multipurpose Room were completed in 2022 and have been open for families. It has been amazing to see our participants access this expanded Clothes Closet – complete with full-length mirrors and merchandised like a retail store. Our

volunteer team helps ensure the space is well stocked with seasonal items to ensure a dignified “shopping” experience.

We were also able to resume group programming in our new Multipurpose Room and host special events like our participant holiday party and our annual donor appreciation event, Deep Roots. This new space has enabled us to connect with our participants, agency partners and staff in a purpose-built space that encourages collaboration and connection.

While we are so proud of what we’ve accomplished, we aren’t quite there. We still have just over \$1M left to raise to fully realize our vision and transform our building into a space where teen parents, their children and the community can connect and grow together.

We plan to begin the final phase of renovations in 2023 and complete this project by year-end, including the much-anticipated Parent and Child Engagement space. As with everything at Terra, the community is a part of our plan and progress, and we invite you to get involved. To learn more about our building project and vision, please contact Kejina Robinson krobinson@terracecentre.ca

Collective Kitchen renovations in progress

Leading the Way

Terra’s building project would not be where it is without those donors who believed in our early vision and stepped up to support. We are overwhelmed with gratitude for our community of supporters who invested in our project.

While we are still working towards realizing our capital campaign goal, we are excited to profile three amazing supporters whose leadership gifts not only have brought us closer to our campaign goal, but through their giving have inspired other community members to join us in this important campaign.

We are grateful to all our donors who continue to invest in our programs and the potential of teen parent families.

Stollery Charitable Foundation

Thank you to the Stollery Charitable Foundation whose generous early contribution of \$125,000 allowed Terra to begin renovations with confidence. The Stollery Charitable Foundation has been a long-time supporter of Terra and we are honoured to have their support extend to this important project. This amazing contribution was one of the first 6-figure gifts we received and encouraged many others to join the Stollery in supporting Terra’s project. Thank you to our friends at the Stollery Charitable Foundation for your philanthropic leadership!

Edmonton Civic Charitable Employees Foundation

Thank you to new Terra supporters, Edmonton Civic Charitable Employees Foundation (ECECAF) for donating \$75,000 towards Terra’s Building Stronger Futures Campaign. This amazing donation will be used to create the future parent & child engagement space planned for the main floor. This early investment will support Terra in the next phase of renovations to create a new parent & child engagement space that will support more young children in getting the very best starts in life.

Edmonton (Host) Lions Club

The Lions Club have been long-time supporters of Terra. Through giving of their time, talents and treasures, the Lions Club and their members have been a part of the Terra family for over 13 years. We are grateful to the Edmonton (Host) Lions Club for their amazing \$50,000 to our building project.

Kindness in Action

We are extremely fortunate and honoured to inspire community members to donate items in-kind for the teen parent families who come to us for supports. The majority of our participants live in poverty and are feeling the impact of rising food prices, transportation costs, and the normal expenses that all families face.

We try to alleviate some of the financial stressors by keeping our Clothes Closet well stocked, providing diapers and essentials, and providing meals at Braemar school and most of our group programs. This is possible because of the generosity of our in-kind donors.

Each year many community members come to our building with gifts and essentials for our participants. We also receive gifts-in-kind from service clubs, organizations and businesses including:

The Salvation Army

The Salvation Army has consistently provided lunch to the students attending Braemar School, every Tuesday for the last four years. They also donated more than 50 large personalized holiday hampers to the student families.

Jack's Burger Shack

Three to four times a year since 2019, the fine folks at Jack's Burger Shack load up their vehicle and head to Braemar to treat the students to a delicious lunch. We are thankful that this small busy business makes time for our hard-working participants.

Happy Holiday Memories

In December 2022, we were finally able to bring our families together for holiday celebrations. We had many community members donate festive items to help us celebrate. We'd like to thank the following groups for helping us create happy holiday memories:

- The Boys & Girls Club of Edmonton West
- Discovery Toys
- The Boiler Makers Union
- The Church of Jesus Christ of Latter-day Saints

Thank you to everyone who contributed to help us lift spirits, provide delicious meals and send home wonderful gifts for parents and children.

144

(representing several thousand items)

\$49,903
value of in-kind gifts

Valued *Volunteers*

Terra’s volunteer team has been eager to come and support our programs and activities and we are grateful. In 2022 there were many in-person opportunities for volunteers to share their time and talents with us. We would like to recognize some of the volunteer groups who donated their valuable time to Terra.

Old Navy

Old Navy clothing store team members brought their talents to help organize the donations that come into our Clothes Closet spaces at Braemar School and our west-end building. This team has also collected much needed items for our participants and their children.

Fundraising Bingo Volunteers

Non-profits, like Terra, receive valuable funds from gaming activities like Bingos and Casinos. This support would not be possible without our dedicated Bingo volunteers who represent Terra one to two times each month at the Fort Road Bingo Hall.

Edmonton Host Lions Club

We took full advantage of gathering with our participant families over the summer

and the Lions were there to help. They supported our first participant BBQ since 2019 by bringing all the equipment to cook, prepare and serve lunch to families. Later in the summer they came out to help us again as we celebrated our 50th anniversary with a Block Party.

Over the holiday season two Lions Club members with snowy white beards played the role of Santa at two of our holiday events.

The Lions also contribute through gift-in-kind donations like personal care kits and financial donations. We are grateful to have the support of this amazing group of people.

Rotary Club of Edmonton South

Our friends at the Rotary Club of Edmonton South have been making an impact at Terra for over nine years. In 2022 they helped us make our Block Party a success as well as contributed to our participant holiday events.

Time is one of our most precious resources and to all those who make time for us as we work with our participants - thank you.

C5 is a partnership of five local Edmonton agencies working collaboratively to provide a 'one-stop shop' for vulnerable populations to provide them with a full spectrum of holistic programs and services to move people out of poverty, help them access affordable housing, and help them navigate the social system and access government supports.

Since 2015, C5's partners include:

- Bent Arrow Traditional Healing Society
- Boyle Street Community Services
- Edmonton Mennonite Centre for Newcomers
- Norwood Child and Family Resource Centre
- Terra Centre for Teen Parents

Across the C5 organizations we serve Indigenous individuals and families, teen parents, newcomers (immigrants, refugees, asylum seekers), vulnerable children, families, and some of the most economically, socially, and culturally-marginalized children, youth, and families in Edmonton.

While each organization individually specializes in serving a specific population, collectively they collaborate at the C5 North East Hub, Community Market, and Clareview Recreation Centre.

C5's 'one-stop shop' is focused on supporting vulnerable populations struggling with poverty, houselessness, mental health challenges, food security, lack of natural supports, isolation, with particular focus on Indigenous and racialized minorities.

The C5 North East Community Hub model is based on wraparound supports and a holistic approach to supporting individuals and families. We work to address all challenges in one place rather than referring them elsewhere. This means that people who most need our help do not have to run all over the city telling their stories multiple times, to multiple organizations, to get the help that they need.

Active C5 Programs

- Community Hub Programs
- Community Market
- Early Childhood Development programs
- Employment Programs
- Financial Literacy
- Parent/Caregiver Programs
- Seniors Supports
- Systems Navigation / Social Supports
- Ubuntu
- Youth Hub & Programs

30,000

people served collectively by the C5 agencies each year

5,195

individuals and families served from the C5 Hub (2021)

800

families served each month (approx.) out of the Community Market for food security support

3,522

unique individuals accessed the Pantry Program through the Community Market

Future Builders

We celebrate and thank our *Future Builders* for their unwavering commitment to our vision of teen parent families thriving and enriching our community. These special donors have contributed to Terra’s endowment fund or included us in their estate plans.
